Poster

Displayed throughout the conference

Author's presence required at specific moments during the conference to answer participants' questions

Selection process and criteria:

Abstracts evaluation

Abstracts will be anonymized and evaluated by the scientific committee based on the following criteria:

- Topic relevance for neuroscience nursing practice;
- Development of new knowledge and competencies;
- Clear structure and well organized content;
- Rigorous approach;
- Elements of innovation;
- Results (if based on a research project).
