

There is a Run for Research on Tuesday morning, June 26th in Halifax Nova Scotia!

Each runner or walker will be expected to contribute at least \$20 for his or her participation. People who choose not to run or walk will be encouraged to donate money to the runners and walkers.

Eastern and Western participants will deposit their raised funds into their respective provincial boxes to encourage a competition between the two sides of the country.

There will be a small prize for the individual winner of the Run for Research. The total funds will be announced Tuesday at Lunch and the “superior” side of the country will be announced....for bragging rights.

Please sign up when you register for the conference.
